RZR TURBO R

INTRODUCING THE ALL-NEW

RZR **TURBO R**

THE RZR ADVANTAGE

POWER. STRENGTH. CONTROL.

POWER

181 HORSEPOWER Powering RZR Turbo R over dunes, trail and rock is a factory-installed turbo engine designed for strong corner-to-corner acceleration and with the power to stay out in front.

OPTIMIZED WHEELBASE With a 96" (243.84 cm) wheelbase on the 2-seat and 125" (317.5 cm) on the 4-seat, you'll get the stability and turning radius needed to tackle tighter, more challenging trails.

LOWER LOW GEAR RZR Turbo R couples massive ground clearance with plenty of low gear to give you a smooth power output as you navigate demanding terrain.

STRENGTH

ONE-PIECE CHASSIS Built to last, the updated chassis keeps everything firmly in place and allows the machine's superior suspension components to do their part, so you can keep riding confidently across the roughest terrain.

BOXED STEEL SUSPENSION Hit the whoops and the rocks with confidence, knowing that your RZR Turbo R is engineered with boxed front dual a-arms and a massive suspension system designed to take the impact of anything the trail throws in its way.

STRONGER ROLL CAGE From desert dunes to rocky trails, the roll cage is built to add rigidity to the chassis and keep riders on the hunt for next-level experiences.

CONTROL

74" WIDE STANCE The widest stance we've offered in the off-road, coupled with our revolutionary MaxLink Suspension system, gives you the ability to soak up the bumps and hold your line.

DYNAMIX DV Pick the perfect ride and handling mode and DYNAMIX DV will automatically adjust the suspension and steering to help you take on whatever comes your way.

71.12 CM OF USABLE TRAVEL The revolutionary MaxLink Suspension system attaches the front shocks directly to the lower arms, allowing for the use longer shocks and delivering a more comfortable, controlled ride.

INTRODUCING THE ALL-NEW 2022 RZR TURBO R

POWER

PRECISION POWER

The 181 HP ProStar turbo-charged engine delivers the right power, right when you need it. With instant acceleration and immediate response, you'll be in charge of an adrenaline-fueled experience that you can share with family and friends.

AGILE MANOEUVRABILITY

With a 96" (243.84 cm) wheelbase and wide 74" stance, the Turbo R stays firmly planted while accelerating through corners. *Wheelbase on 2-seat model.

BUILT TO CLIMB

The low gear on RZR Turbo R is geared even lower, to deliver the torque you need to capably crawl around, through or over demanding terrain.

STRENGTH

RIDE ON

Confidently hit the whoops and rocks with the industry's most robust suspension system - featuring high clearance radius rods and huge boxed steel front a-arms.

BUILT TO LAST

With its one-piece chassis, 5-bolt hubs, 3-piece front stabilizer bar, M14 bolts and larger cooling system, RZR Turbo R is designed to endure. Put it through its paces knowing it will be ready to go again when you are.

CONTROL

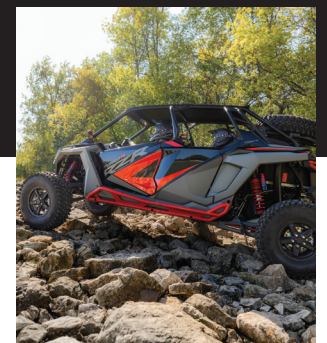

SOAKS UP THE BUMPS

DYNAMIX DV paired with MaxLink 71.12 cm Suspension delivers automatically adjusting suspension for every situation with 4 modes: Comfort, Track, Rock and Baja.

THE TECH YOU NEED

Ground-breaking Ride Command GPS technology helps you plan your ride and stay connected, while a trail-optimized Stage 2 Rockford Fosgate® audio keeps you rocking.

BRING EVERYTHING YOU NEED

Be prepared for whatever the trail has in store with Fold Flat storage that allows you to bring more of what you want — and more of what matters.

*Available in the 4-seat model.

WARNING: Polaris off-road vehicles can be hazardous to operate and is not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. All riders should always wear helmets, eye protection and protective clothing and footwear. Read, understand and follow your owner's manual. Ride within the limits of your own abilities and never engage in stunt or exhibition driving. Never ride under the influence of drugs or alcohol.
