INTRODUCING THE ALL - ELECTRIC RANGER XP KINETIC

Full-Size 3-Seat
Premium & Ultimate Models

UNCOMPROMISED

CAPABILITY

POWER FOR ANY JOB

RANGER XP Kinetic's electric motor produces an industry-leading 110 HP and 140 lb-ft of torque, making it the most capable and most fun RANGER ever.

EFFORTLESS HAULING & TOWING

Class-leading 1,134 kg towing and industry-leading 567 kg hauling capacities let you move more rock, brick, hay, dirt, wood, and supplies at one time so you can get the job done faster and in fewer trips.

INSTANT TORQUE, PRECISE CONTROL

The electric motor delivers all of its torque instantly, allowing for immediate pulling-power while towing, precise manoeuvrability in tight quarters, and amazing throttle response out on a ride. A new shifter design also adds an integrated switch for forward and reverse to the existing high, low, neutral and park gears for easy transitions between the two.

DAWN TO DUSK RANGE

With an available 130 km of estimated range*, RANGER XP Kinetic has plenty of juice to work even the toughest shifts from sun up to sun down.

UNRIVALED DURABILITY

LOWER MAINTENANCE COSTS

Scheduled maintenance costs for XP Kinetic are estimated to be 70% less than the average costs for similar petrol-powered vehicles (based on 5 year cost of ownership).

MOST DURABLE TRANSMISSION

Power is sent to all four wheels via a synchronous belt drive transmission that eliminates the need for a clutch and offers maximum transmission durability and smooth power delivery.

PEACE OF MIND

In addition to a 1-year standard factory warranty, XP Kinetic is also backed by 3-year electric powertrain coverage and 5-year battery coverage**.

LESS MAINTENANCE, MORE UPTIME

Forget about oil changes, fluid flushes and air filters. With far fewer maintenance requirements, RANGER XP Kinetic offers unrivaled service intervals and lets you focus on the job at hand, not upkeep.

REFINED PERFORMANCE

QUIET OPERATION

The electric powertrain helps you connect to what matters most. Quietly haul gear to the blinds, work closely with livestock, or enjoy an easy conversation with passengers without engine noise or fumes in the background.

USER-SELECTABLE DRIVE MODES

RANGER XP Kinetic has three drive modes to optimize for the task at hand. Eco+ limits torque and top speed. Standard optimizes for everyday driving and moderate-sized jobs. Sport optimizes for spirited driving and the toughest jobs.

MAKE IT YOURS

Tailor XP Kinetic to the way you work and ride. Compatible with 95% of current full-size RANGER accessories, you'll have a range of options including Pro Shield cab systems, Lock & Ride storage, HD winches, and more. New accessories include a fast-acting electric heater so riders can stay comfortable in cool weather.

POWER ON-BOARD

A 12V cargo box outlet is convenient for powering accessories like sprayers or small tools. It is controlled via a switch on the dash for easy on-off operation, eliminating the need to exit the vehicle to control connected accessories.

*Range estimates based on manufacturer data on typical customer driving usage and conditions. Actual range varies based on conditions such as external environment, weather, speed, cargo loads, rates of acceleration, vehicle maintenance, and vehicle usage.
**Promotional powertrain warranty inclusive of 12 month factory warranty plus an additional 24 month warranty. Promotional battery warranty inclusive of 12 month factory warranty plus an additional 48 month warranty.
